INTRODUCTION

Ultimate Contracting Company running successfully since 2006. We are a leading diversified company carrying out construction, engineering, testing, development & modification of the Oil and Gas Pipeline activities, in the Kingdom of Saudi Arabia. Formerly, Naïf Abdullah Al Otaibi Est, started in 2006, the organization has changed the profile to the new name “Ultimate Contracting Est.” in 2011 and thereafter in 2022 it has been changed its status to the company and became renamed as “Ultimate Contracting Company.”

We have been registered with the corporate such as SAUDI ARAMCO (Vendor #10052316), SABIC (Vendor # 508717), SEC (Vendor # 5013442), KFUPM and several other private corporate including multinational companies. Since its inception, with a few very experienced crews in the field of Oil and Gas, “Ultimate” has achieved, by being dedicated to our commitments, remarkable positive responses from our clients. Thus, we established our name as a brand for the pre-commissioning testing services in the field of pipeline and plant piping of Oil and Gas business horizon in Saudi Arabia. As time passes our capability has been enhanced by capitalizing well experienced qualified professionals and sufficient infrastructure to our strength.

Recently we entered into industrial cleaning and chemical trading division under experienced chemical engineers with proven track records in industrial cleaning, trading of industrial and laboratory chemicals to meet the specialized needs of the growing industries in the petrochemical, oil & gas, and other industrial sectors.

We have in house blending unit for specialized Eco friendly Bio degradable Descale cleaning chemicals, Decontamination of crude tank and have a range of specialist chemicals for the cleaning of petroleum hydrocarbon residues. Oil and oily residues from tanks, pipes, well bores and oil spill, and for industrial and commercial cleaning.

- Ultimate is dedicated to the commitment, holding the high spirit by keeping the management responsibilities.
- With absolute integrity and team work, Ultimate's aim is to develop and sustain the continuous healthy relationship with its clients.
- By effective adaption in enhancement to the new technique, Ultimate is looking forward to the par excellence in providing quality and time frame services.
- Delivering the most within the time, Ultimate aims the satisfaction of its clients.
- With the most openness and transparency in operations, Ultimate endeavors satisfaction of business partners locally and globally.

To satisfy our clients' requirement we are up-to-date on the latest proven techniques & technologies in the industry that allow efficient execution of projects that meeting the time, cost and quality requirements of our clients with a commitment to continual improvement in quality.

To develop an efficient management we focus on productivity, development of organization and counseling work ethics in all personnel.

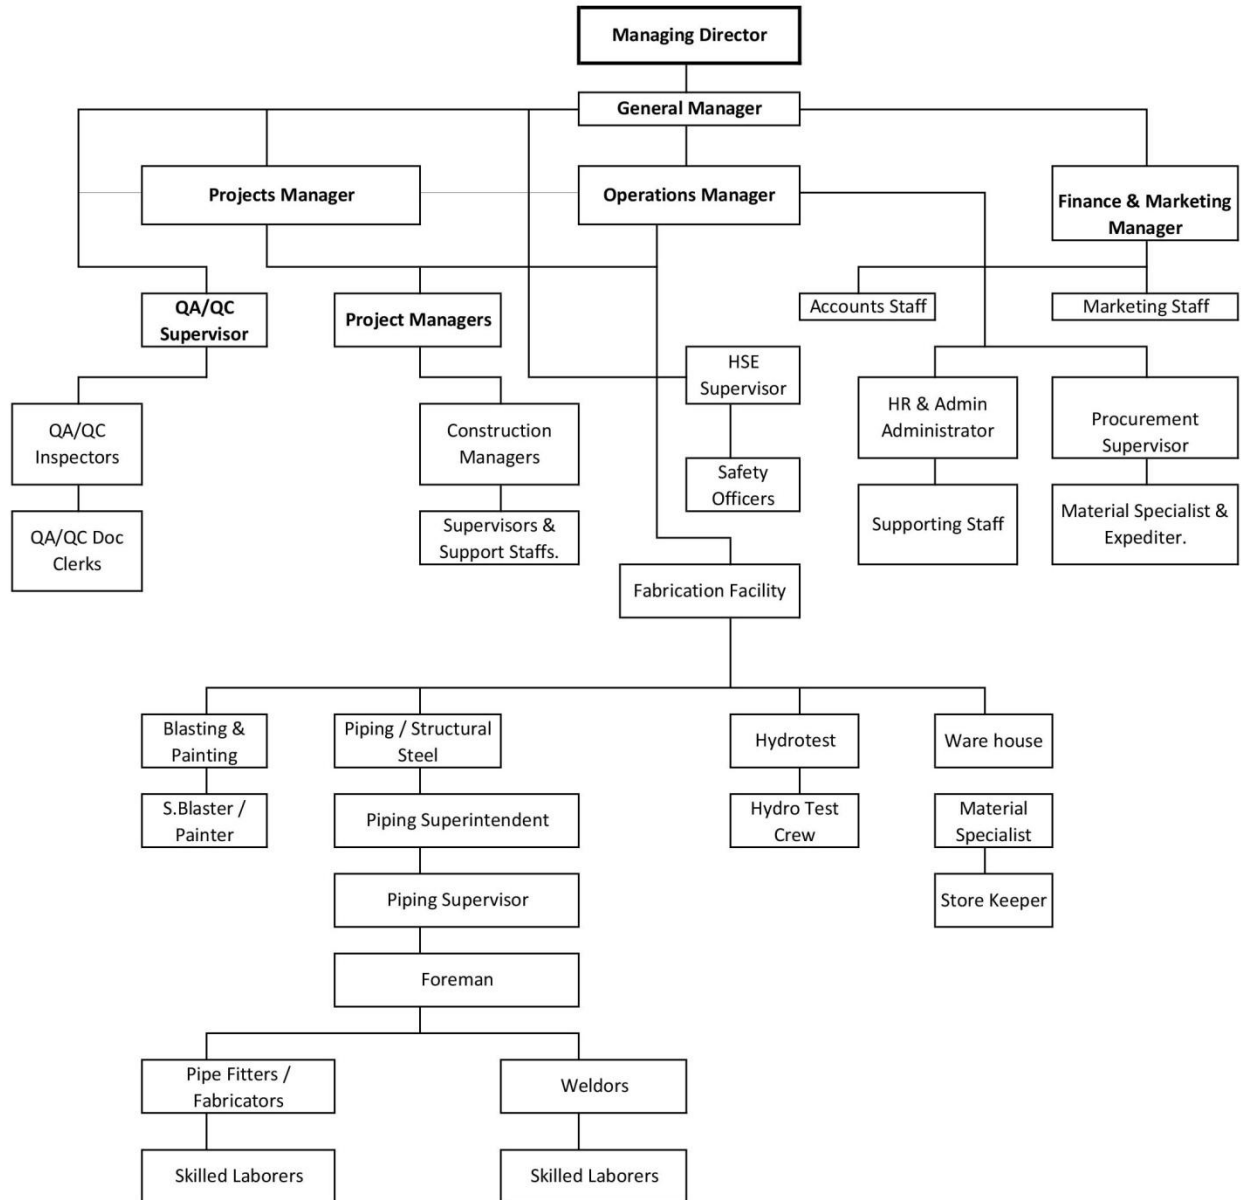

Our Services include:

ULTIMATE CONTRACTING CO

QUALITY POLICY STATEMENT

Ultimate Contracting Co is committed to delivering a high standard quality of workmanship. Ultimate management formulated the following policies for making sure that its services meet the required quality.

1. Develop and maintain a highly skilled professional workforce- knowledgeable and capable of providing organizational leadership.
2. Establish, maintain and improve world class business and quality processes.
3. Establish, maintain and improve supplier relationship to comply with delivery schedules.
4. Establish, maintain and improve machine availability, efficiency and usage through the use of predictive/preventive maintenance and preventive action.
5. Establish and maintain a quality management system that will allow management to perform PDCA's (plan, do, check, act) on the key administrative and product processes that provide tangible value to internal and external customers.
6. Establish, maintain and improve employee knowledge and compliance to environmental, health and safety requirements that jeopardize individual safety and the company's future.

Review

This Policy is reviewed annually.

MANAGING DIRECTOR

ULTIMATE CONTRACTING CO.

ULTIMATE CONTRACTING CO

HSE POLICY STATEMENT

The Management of the company considers the promotion and continued support of Health & Safety at work to be of paramount importance to the company and to its employees' welfare and safety.

The Company's policy is to effect and accomplish all that is reasonably practicable and appropriate to prevent injury to persons or damage to property, and to maintain a safe and healthy working environment for its employees and subcontractors to operate in. The company is also conscious of its responsibilities to its customers and the general public as and when they come into contact with the company's activities.

Health and Safety and public liability, and will take all reasonable measures to meet its commitments.

It is the company's policy to comply with all legal requirements and associated codes of practice.

The company's objective is to provide, as far as is practicable:-

- A safe working environment.
- A safe system of work with safe and appropriate operating procedures.
- Suitable plant, equipment and tools, properly maintained to accomplish the work in hand.
- Adequately trained and qualified personnel, together with competent and appropriate levels of supervision.

Employees for their part have a duty to themselves, their colleagues and the company to:-

- Work safely and in line with all safety procedures and instructions.
- To use personal protective equipment and clothing where appropriate and where provided, and to take reasonable care of such items.
- Report all accidents, near misses and any damage to equipment accurately and promptly to their supervisor.
- To ensure that work areas are maintained in a clean and tidy condition at all times.
- To ensure reasonable care for the health and safety of themselves and their colleagues who may be affected by their acts or omissions at work.
- Seek opportunities to improve their own and the company's safety performance.

Employees also have a duty to co-operate with the management to enable the company to meet the requirements imposed on it by statutory safety legislation. No person shall intentionally misuse or interfere with any item that has been provided in the interests of health and safety or welfare in the pursuance of any relevant statutory provision.

Responsibility

The persons ultimately responsible and accountable for the provision, maintenance and any revision of this policy are the company's Management.

The implementation and maintenance of this policy on site is the responsibility of departmental managers and supervisors.

Safety Representative

The Engineering/Contracts Manager also performs the duties of the Safety Representative and will advise the Management, Managers and Supervisors of any requirements or corrective actions required to maintain, improve or update the Health and Safety systems and requirements. The Safety Representative will also draw to their attention of any unsafe situations or occurrences that may have developed, together with the appropriate actions required to ensure compliance with legislation.

Safety Audits

The Safety Representative or his appointed deputy will undertake regular Safety Audits of the company's operations and the written reports and results will be an agenda item in the subsequent HSE Review Meetings. The scope of the safety audit may include, but is not restricted to:-

- Identification of any new hazards arising from the implementation of new processes.
- Review and/or Assessment of the risk of hazards identified under COSHH requirements including the adequacy of existing COSHH information available to employees.
- Assessment of safety performance.
- A review of the adequacy of existing safety arrangements and procedures.
- A review of any observations and comments made by employees, sub-contractors or visitors.

Departmental Supervision

The control, compliance, and maintenance of day to day safe working conditions and practices within the company's operating areas are the direct responsibility of departmental managers and supervisors.

Any Health and Safety problems or incidents arising and outside their power to remedy, will be referred by them to the Safety Representative who will arrange for any necessary and appropriate action to be carried out.

Employees should bring any Health and Safety matters that require action to the attention of their supervisors or the Safety Representative as soon as possible.

Main Hazards for Employees

- Cutting and welding processes.
- The use of crane and lifting equipments.
- Grinding, milling, drilling and turning operations.
- Fabrication and assembly of spools.
- Pressure Testing of piping, tanks and vessels.
- Blasting and Paint Spraying.
- Pigging and Nitrogen purging.

The operations listed above demand particular care of the equipment and processes in use and respect of the job function

Safety Awareness

It is the company's policy that all new employees are made aware of safety measures which include: -

- Advice on the location and the contents of the company's Health and Safety Policy.
- First Aid facilities - names and locations of First Aiders and First Aid equipment.
- Accident, Fire and Emergency procedures.
- Summary of the main hazards as required by COSHH Regulations.
- Details of the Safety Representative and his location.
- Safety Training and provisions.

Protective Clothing and Equipment

Where protective clothing or equipment has been made available for specific purposes it must be used correctly and not abused in any way. Personnel protective equipment is essential within all workshop areas and inside the plant.

First Aid

First Aid is available from the persons named as such on the notice boards and First Aid boxes are available in workshop and all work locations.

All accidents must be reported immediately, but in any case within 24 hours of the occurrence to a First Aider who will ensure that the necessary entry is made in the Company Accident Book. The Safety Representative has the responsibility of advising the Health and Safety Executive in writing of any noticeable occurrences. It is the responsibility of departmental heads and supervisors to draw such occurrences to the Safety Representatives attention.

Fire Procedure

Notices are posted on the notice boards providing details of the procedure to be adopted in the event of fire on the premises

The building and work shop is equipped with fire alarms and firefighting equipment. Fire Drills are carried out periodically, and records of such drills are maintained.

Records

A record of all training, safety or other, is maintained by the company's HR Department, and those arranging any training are responsible for providing the information to be recorded. The company maintains accident records as required by the Health and Safety at Work act, the First Aiders being responsible for making such records. Minutes of all Health and Safety meetings are recorded and copies held by the Safety Representative.
